

Site Security

Data and Site Security

BLOCI Ltd. has security measures in place to protect the loss, misuse, and alteration of the customer information we store.

All data is protected using the most advanced methods available. Our data centre is staffed 24 hours a day, 7 days a week with security experts who monitor the safety and security of our site.

Links to other websites

Our website may contain links to other websites of interest. However, we do not have any control over other websites, and we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and are not governed by this privacy statement.

Transaction Security and Encryption

Debit and Credit Card Payments

All our debit and credit card payments are compliant under the Payment Card Industry Data Security Standard (PCI). We adhere to the most stringent levels of fraud screening, ensuring that customer's details remain secure throughout the transaction process.

Square Payments

Square deliver one of the most secure payment platforms in the world. Safeguarding your financial and personal information is one of their most important priorities, and so is a perfect payment option for our customers. Square heavily guards all personal information, both physically and electronically, so that your details are kept private and out of the wrong hands. As well as using fraud prevention technology that monitors transactions for suspicious activity, Square can also help you get your money back if something ever does go wrong.
